#### Introduction

Events registered with the City of Calgary are obligated to prepare an emergency response plan (ERP). Such plans need to be created to prepare for and respond to potential emergencies such as:

- Fire
- Flooding
- Severe weather (i.e. high winds, snow)
- Bomb threat

- Medical emergency
- Power outage
- Violence/Unruly Patrons
- Other threats

This ERP events guideline includes an event description; plan scope and administration; hazard identification and mitigation; roles and responsibilities; external resources; site plan; medical, safety and security plans; communication plan, activation and response; VIP list and coordination plan; vehicle and pedestrian traffic plan; and education and training.

The purpose of this guide is to;

- Aid event organizers in developing comprehensive and consistent emergency response plans
- Emphasize the importance of preparing for an emergency before an incident occurs
- Increase the safety of citizens during special events

These guidelines have been developed with reference to the Alberta Emergency Management Agency's *Emergency Response and Planning for Mass Gatherings*, the Canadian Standards Association's *Emergency Management and Business Continuity Programs* (CSA- Z1600) and *Emergency Preparedness and Response* (CSA- Z731).

# **Plan Contents**

# 1. Event Description

- Event Descript	
Event Name	East Village Street Fair
Organization	East Village Neighbourhood Association
Location(s)	8 <sup>th</sup> Avenue SE, from 4 <sup>th</sup> Street to 6 <sup>th</sup> Street SE, and 5 <sup>th</sup> Street from 8 <sup>th</sup> avenue to 6 <sup>th</sup> Avenue SE
Event Date(s)	July 1 <sup>st</sup> 2022
Event Time(s)	11:00am-5:00pm
Set-up Date(s)	July 1 <sup>st</sup> 2022
Take-down Date(s)	July 1 <sup>st</sup> 2022
Total Peak Attendance Numbers	25000
Total Expected Attendance Numbers Per Day	n/a
Demographic of Attendees (e.g. Family, All ages, Aged 18+)	Family all ages event, with 18+ beer garden
Parking/Shuttle Details	Public transportation via the LRT is the easiest way to reach the venue. Passengers disembark at City Hall Station and walk east toward the event venues. Should visitors choose to drive there are several Parking Lots and limited of street parking available in proximity to the venue. The Downtown East Village is connected to the regional pathway and therefore nearby downtown and neighbouring residences of Bridgeland, Ramsay,and Inglewood can bike to the venue. Bike parking is available at various locations in proximity to the venue. For guests who drive to attend the event, parking is available from the Calgary Parking Authority at the 9 <sup>th</sup> avenue or "platform" parkade, and the City Hall Parkade.
Type of Food Provided (e.g. vendor tents or food trucks):	Food trucks will be attending the event, and food vendors have been invited to participate as vendors.
Alcohol Served (Yes/No)	Yes
Cannabis Consumption Area (Yes/No)	No

# 2. Plan Scope and Administration

Name of person responsible for maintaining and/or updating the ERP: Victoria Spencer

ERP distribution list (who will receive the ERP document): City of Calgary, CMLC, AGLC, the EVNA board, Security Staff and Insurance Providers

Note: If there is an existing site ERP, this plan must also be referenced and/or incorporated.

# 3. Hazard Identification, Risk and Emergency Response Plan

# **Control Objective**

- Identify risks and hazards associated with the event and what prevention and risk strategies have been identified to address the risk and hazards.
- Identify physical risks and hazards.

<sup>\*</sup> Note: Other risks may be associated with your event, please include any additional risks in the below chart.

Hazard/Risk	Potential Harm or Loss	Probability	Impact	Prevention/Risk Reduction Strategy	Emergency Response Plan
Extreme Weather	Infrastructure compromised, blowing debris, injury from hail or site evacuation due to lightning	High	High	All vendors will be required to ensure their tents meet weight requirements to keep them secure in the event of extreme July weather.  In the event that extreme weather occurs before the start of the event and the event needs to be cancelled we the Event Director will notify all	Announcement 1: Ladies and Gentlemen. There is an extreme weather advisory for the area / lightning risk, due to arrive at (time). We are postponing the event and evacuating the site until the extreme weather has passed. For those that need assistance please proceed to the Information/Lost Person tent. Please proceed calmly to the exits and leave the area to find shelter.  Announcement 2: Ladies and Gentlemen, we are

				parties of the cancellation with the assistance of the EVNA event committee. The public will be informed via our social media channels.  If the event needs to be cancelled due to inclimate weather, while the event is taking place the event coordinator will make announcements via megaphone, volunteers will be asked to inform vendors and direct guests to the exits. Public announcements will be made on our social media channels.	cancelling the event due to extreme weather and evacuating the site. Please proceed calmly to the exits and leave the event site to find shelter or proceed directly home. Note that if power is down we will have megaphones for announcements.
Flooding	Unsanitary conditions due to sewer water back up.  Damage to property  Physical harm to patrons, including electrocution	High	High	In the event of high water prior to the event the situation will be monitored by the event coordinator, in the evnt the risk of overland flooding exists the event will be cancelled.  In the event of flash flooding due to a storm, immediately prior to the event, the event will be cancelled.	In an emergency situation volunteers will direct the crowd from the street onto the sidewalk behind the vendor booths. They will also direct the crowd to not move until directed to. At that time, volunteers will hold guests on the sidewalk until instructed to move the crowd to a designated safe area. If further evacuation is required guests will be asked to walk calmly along the sidewalk to the egress locations

## 7. Communication Plan

In an emergency, information must be communicated quickly and accurately. The purpose of the communications plan is to establish an effective emergency communication network and a procedure for the prompt notification of individuals and agencies involved in an emergency response.

	Marketing Director marketing@yycevna.org	

A megaphone may be used to make announcements

Announcements may be made on social media via our facebook, Instagram, and twitter accounts Volunteers/event coordinators will communicate directly to guests on site.

#### 8. VIP List and Coordination Plan

Note: If there are security risks to any VIPs, this matter will have to be coordinated directly with Calgary Police Service.

Mayor Jyoti Gondek, MLA Joe Ceci, MP Greg McLean and Councillor Terry Wong will be invited to attend the event.

## 9. Vehicle and Pedestrian Traffic Plan

## **Vehicle Management:**

EVNA event staff and volunteers will ensure unimpeded access for emergency services at all times into the event venue area to maintain mergency access while providing support services for the East Village Street Fair event. Access to neighbouring residential buildings and businesses will be unobstructed. Along 8<sup>th</sup> ave SE, a 6 metre (20 foot) clearance will be implemented to ensure emergency vehicles can access the roadway during the event in case of emergency. Road closures will be provided by CPS as part of the City of Calgary's Canada Day Festivities.

#### **Pedestrian Traffic Plan:**

EVNA Volunteers and Event Coordinators will monitor traffic at the intersection of  $8^{th}$  avenue and  $4^{th}$ ,  $5^{th}$  and  $6^{th}$  street. As well as the space between  $8^{th}$  avenue and the Beer Garden. Volunteers throughout the event venue will also guide attendee traffic.

Transit Plan: Will shuttles be used for your event, is Transit part of your event?

Shuttles are not part of our event plan, use of transit will be encouraged to get to the event however we don't anticipate an impact to transit services.

#### **Shuttle Plan:**

N/A

## 10. Education and Training

How and when will staff/volunteers will be trained on ERP procedures: Competency in responding to emergency incidents requires a complete understanding of the roles and duties as highlighted in this ERP plan. Review will take place at the EVNA Event Committee meetings and volunteer orientation. EVNA Event Committee members and volunteer leaders will be assigned specific roles and responsibilities and will review the basics of the ERP and highlight key areas that directly impact them with their direct reports. The purpose of this document is to familiarize all EVNA volunteers with their responsibilities, and through practical discussion at EVNA Event Committee meetings, evaluate the practicality of the East Village Street Fair ERP and adjust and update the document with best practices as the event planning evolves.

#### 11. Lost Child/Person Procedure

The City of Calgary and Calgary Police Service endorsed Lost Persons Plan: There is a clearly marked Lost Persons Tent  $6^{th}$  street and  $8^{th}$  avenue SE - First Aid/Information Tent.

In the event of a lost child/person (with special consideration for children), the Onsite Coordinator at the 'Lost Person' tent shall inform *Victoria Spencer*. These staff members shall determine the appropriate course of action, based on one of two scenarios:

A lost child/person with no apparent abduction would normally be an alert to staff and monitoring exits. A call to CPS non-emergency would be made with description of child/person.

An apparent abduction or suspected foul play would be a 911 call and active searching for the child with full monitoring of exits.

For a **Lost Person** reported by a guardian and activate **Lost Person ERP**, call **911 or 403-266-1234** For a **Found Person** missing guardian activate **Found Person ERP**, call **403-266-1234**.

#### **Lost Person ERP**

In the case of a missing child/person, search efforts will commence led by the Site Manager who will provide direction to security, additional staff and volunteers. This communication shall occur according to the communications chart below. Staff, security and volunteers shall be assigned by the Site Manager to ensure no individuals leave the site, and other staff members may be assigned to monitor the perimeter of the site to ensure that the lost person, does not leave. This action shall continue until the lost party has been located, or the parent/guardian or Site Manager has determined it appropriate to contact the Calgary Police Service.

#### **Found Person ERP**

In the case of a found child/person, gather information from the person and look to see if guardians can be located before moving the person. After an initial scan of the area escort the found child/person with minimum of two volunteers or staff to the Information/Lost Person tent. Announcements and every effort will be made until child/person and guardian are reunited.

## 12. Site Plan

Include a site/facility map(s) identifying the following:

- All temporary infrastructure(s) (tents, porta potties, fencing etc.)
- Emergency Exits
- Clearly labeled activity locations (Children's Area, Food Trucks, Stage, Beer Gardens, Cannabis Consumption Area, etc.)
- Directional North Arrow
- Include existing roads, rivers, pathways and/or buildings on site map.

- First Aid/Lost Persons Tent/Information
   Tent
- Muster Point(s) for staff/volunteers
- Security Location(s)
- Fence Line(s)
- Include a map legend

#### **Definitions / Glossary of Terms**

Alberta Emergency Alert: Disaster can occur anywhere, at any time. It is your responsibility to ensure you are prepared if a disaster occurs. Alberta Emergency Alerts are issued to assist you—providing you with critical information about an immediate disaster, where it is occurring and what action you need to take. Alerts are distributed to the public through various outlets including: Radio and television, Internet, RSS Feed, Social Media (Facebook, Twitter, etc.) and road signage.

**Disaster:** An event that results in serious harm to the safety, health or welfare of people or in widespread damage to property.

**Emergency Response Plan** (ERP): A formal planning document that outlines roles, responsibilities, contacts, planned actions, and procedures to be followed in the event of a Major emergency or disaster at an event (planned or un-planned).

**Environment Canada Weather Office:** Provides up to date weather conditions and forecasts including Weather Watches and Warnings. Go to website: http://www.weatheroffice.gc.ca

**Event:** A scheduled non-emergency activity (e.g., sporting event, concert, parade).

**Hazard:** A potentially damaging physical event, phenomenon or human activity that may cause the loss of life or injury, property damage, social and economic disruption or environmental degradation.

**Hazard Analysis:** Identifies potential hazards, estimates how serious they are and establishes planning priorities. Provides a factual basis for planning, and the necessary documentation for planning and response efforts.

**Incident:** An occurrence, natural or manmade, that requires a response to protect life or property. Incidents can, for example, include major disasters, emergencies, terrorist attacks, terrorist threats, civil unrest, wildland and urban fires, floods, hazardous materials spills, nuclear accidents, aircraft accidents, earthquakes, hurricanes, tornadoes, tropical storms, tsunamis, war-related disasters, public health and medical emergencies, and other occurrences requiring an emergency response.

**Incident Command System (ICS):** A standardized on-scene emergency management construct specifically designed to provide an integrated organizational structure that reflects the complexity and demands of single or multiple incidents, without being hindered by jurisdictional boundaries. ICS is the combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure, designed to aid in the management of resources during incidents. It is used for all kinds of emergencies and is applicable to small as well as large and complex incidents. ICS is used by various jurisdictions and functional agencies, both public and private, to organize field-level incident management operations.

**Incident Commander (IC):** The individual responsible for all incident activities, including the development of strategies and tactics and the ordering and the release of resources. The IC has overall authority and responsibility for conducting incident operation and is responsible for the management of all incident operations and the incident site.

**Mass Gathering:** A congregation of people at an event or activity, which has the potential to place exceptional demands on, or impact to, the community and its services and resources. These events can be pre-planned or spontaneous attracting a relatively large number of people in a confined area either indoors or outdoors.

**Mitigation Strategy:** The Canadian Standards Association (CSA) Z1600-08 document defines mitigation as "actions taken to reduce the risks and impacts posed by hazards" and provides examples of mitigation strategies including: adopting current building codes in development proposals, recognizing, removing or reducing the potential consequences of the hazard and reallocating resources to deal with these strategies. It is recommended that the event emergency planning group incorporate mitigating strategies including: up to date site plans, defined access and egress routes, mutual aid agreements and multi-agency response coordination plans.

Municipal Emergency Plan (MEP) - (Also known as MEMP, Municipal Emergency Management Program): The formal emergency response plan required by legislation of all local governments that includes activation, notification, roles and responsibilities in the event of a major emergency or disaster that typically requires the declaration of a State of Local Emergency (SOLE) and/or a coordinated response by a number of emergency management agencies.

**Risk:** A measure of the probability and severity of adverse effects that result from an exposure to a hazard.

**Threat:** The presence of a hazard and an exposure pathway; threats may be natural or human-induced, either accidental or intentional.
